

Design & Technology	
Aspect	C Evaluate
Year Group	
Year 1	<ol style="list-style-type: none">1. I can look at current products and recognise what they are for, how they work and why2. I can explain what went well with my work and suggest how I would improve it.
Year 2	<ol style="list-style-type: none">1. I can explain my choices of material and techniques.2. I can explain what went well with my work and suggest how I would improve it.3. I can evaluate a range of existing products.
Year 3	<ol style="list-style-type: none">1. I can adapt my design criteria as I develop my product to meet a range of requirements.2. 1. I can select and safely use a wider range of tools to use when making my product3. 2. I can select from, and use, a wider range of materials and components e.g. construction material, textiles and ingredients to make sure my product looks attractive.4. 3. I can accurately measure and form the sections of my product making cuts and holes.
Year 4	<ol style="list-style-type: none">1. I can evaluate my product, referring to both its appearance and the way it works.2. I can discuss inventors and their contribution to design and technology3. I can suggest some improvements and say what was good and not so good about my original design.
Year 5	<ol style="list-style-type: none">1. I can discuss how innovative a product is and suggest improvements2. I can recognise how inventors have been innovative with their products and the effect of this3. I can critically evaluate the appearance and function against original criteria of my product using the views of others and my own feedback
Year 6	<ol style="list-style-type: none">1. I can justify why I selected specific materials.2. I can follow my plan and refine if necessary in order to meet all design criteria.
