

Monday 25th April 2022

Dear Parents and Carers,

In Year 5 this half term, we will be studying 'Earth and Space' as part of our Science curriculum. To help ignite the children's interest we have arranged for a mobile planetarium to come and visit school on Tuesday 17th May 2022. This event will take place during school hours.

The children will have the opportunity to experience space in a 3D environment and make their learning come to life. Inside the dome, there is specialised visual and audio equipment which projects onto the inside of the planetarium giving a 360-degree experience which is totally immersive. The environment created by the dome is completely dark and immerses the visitor into a wonderful experience of the universe! The children will have the opportunity to learn many interesting facts and ask an expert any questions that they have about space.

This is a fantastic opportunity for the children that will support their learning. The cost of the experience is £3.75 per child. Please make payment through the School Gateway App by Friday 13th May 2022. We appreciate your support to enable us to provide these excellent opportunities to enhance your child's learning.

Kind regards,

Miss Tyres, Mrs Cohen and Mrs Wood

Year 5 Teachers
